HANGOUT / TABLE

Hangout is a natural companion at the office; a high desk for the activity-based workspace, a mobile and easily-accessible space for quick and creative meetings where thoughts can flow freely. The table combines a surface, for showcasing and pinning things, with a room divider thanks to its multi functional sides.

The piece is constructed with dimensions optimized towards a light expression. Hangout is, as it sounds, a place for the spontaneous conversation or meeting, free of distractions like wires or built-in tech.

Under the tabletop is a hidden storage space and a whiteboard can easily be attached to one of the sides. Hangout is placed on wheels and easily glides through doorways, in and out of elevators and between furniture.

The table can take many expressions with its variety of elements, colors and materials.

DESIGN

ADDI Design studio

MATERIALS

The metal frame is produced in powder coated steel with the choice of three colors: Dark Grey, Pale Grey or Signal White.

Table in High pressure laminate: Dark Grey HPL, Light Grey HPL and White HPL.
Table in veneer: White pigmented ash veneer and oak veneer.

Sound absorbent: Camira Cara Merrick, Camira Cara Sprey and Camira Cara Beltane.
Gable (wood): White pigmented ash veneer and oak veneer.

writing board
Color painted safety glass.
